CONCEPT EXAMPLES

ACCUMULATION CONVEYORS
- Low pressure accumulation
- Friction drive rollers

SEQUENCER
- 900 - 1,200 cases/hr per level
- Single & multi-level
- Reshuffle sequence of cases within flows

SORTER/EXPEDITION CHUTES
- Chutes up to 20 m
- Low pressure accumulation
- Chutes under angle
  OR horizontally
ORDER RELEASE MODULES

- Full case order picking
- Suitable for many kinds of packaging types (no tray-handling required)
- Case buffering in friction drive accumulation lanes
- Low energy consumption
- Compact design
- Up to 10,000 cases/hr per module:
  - in the right sequence
  - in the right quantities
  - at the right moment!
